VIVONE

AS A TABLE BEVERAGE IS OF EXCEEDING importance from several points of view.

BY GENERAL CONSENT STIMULANTS in food or drink are required in tropical climates to aid digestion and propel the circulation. No stimulant is more wholesome, none more pleasing to the senses, than VIVONE.

AS A COMPROMISE BETWEEN THE severe but wholesome simplicity of patriarchal times when the fermentive process was banned and the exigencies of our own age, what could be more appropriate than a depurated grape juice unimpoverished by fermentation but enriched by nutritious stimuli ! Such a beverage is VIVONE.

EXCESSIVE INDULGENCE IN TEA OR Coffee is the frequent cause of Congested Liver. This may generally be staved off by a timely substitution of VIVONE.

ALCOHOLIC STIMULANTS HAVE THEIR properties marred by a narcotic action which deadens the perceptive sense. No such action characterizes the effect of VIVONE.

UNDER A TROPICAL THIRST NO DIGESTION, however robust, can long resist the vitiating influences of Tea, Coffee, and Alcoholic Liquids. But the digestive powers may be restored and thirst may be subdued by the adoption as an article of diet of VIVONE.

THE RITES OF HOSPITALITY DEMAND a beverage compatible with other refreshment, which will recruit and re-animate both mind and body. These are attributes which are especially developed in VIVONE.

Per dozen, Rs. 3. Case of 2 dozen, Rs. 6-8.

TREACHER and Co.'s POTASH WATER, per doz. as. 12.	TREACHER and Co.'s AERATED WATER, per doz. as. 12.

TREACHER and Co.'s OZO, per doz. Rs. 3, bottles included.

TREACHER'S GINGER ALE, is highly aromatic and pleasingly pungent to the palate ; the various ingredients of which it is composed are proportioned to a nicety, and the utmost care and cleanliness ("as with all our Aerated Waters") are exercised in its production.

TREACHER'S LIME-ADE, is a delicious carbonated preparation of the Montserrat Lime Fruit Juice, an antiscorbutic, blood-purifying drink of superior character, ranking as a companion to our much admired Ginger Ale. It is cooling and refreshing at all times, healthful and suited to the present season, and being of full citricity and flavour is palatable and agreeable both as a medicinal agent and as a beverage.

TREACHER'S SODA AND POTASH WATERS, are by the aid of steam power charged with Gas at the greatest possible pressure, and thereby rendered sparkling and agreeable in the highest degree.

TREACHER'S TONIC WATER, is unequalled for delicacy of flavour and tonic properties, each bottle containing a definite quantity of Quinine presented in an agreeable form.

TREACHER'S LEMONADE AND GINGERADE, are as flavoured waters celebrated for their freshness and delicious taste.

TREACHER'S OZO is a delightful sparkling health-sustaining beverage, a dissipator of mental and nervous affections, and a renewer of physical power.

TREACHER'S AERATED WATER, is thoroughly impregnated with Carbonic Acid Gas, and, being free from alkali, it is well adapted for admixture with Claret and Acid Wines. Alone it drinks sharper to the palate and with greater pungency than Soda Water.

PROSPECTUS.

THIS Company is formed for the purpose of carrying on the manufacture of Ice in Provinces of the PUNJAB by means of the patented Machinery and processes of the General Ice Factory Company, Limited, of London, which have been successfully worked in Calcutta, Bombay, and Madras, as well as in the North-West Provinces of India and Kurrachee. The Company will be registered with a Capital of £65,000 divided into 13,000 Shares of £5, and of this number 3,000 Shares will be allotted to the General Ice Factory Company, Limited, fully paid up, for the cession to The Punjab Company of the exclusive privilege of working the General Ice Factory Company's patented machinery throughout the Provinces of the Punjab, and in discharge of all royalties thereon, and also for the general supervision over the engineering and machinery of each factory erected, and over the working of same.

It is proposed to erect the four first factories as soon as possible, so as to commence operations the beginning of next hot season ; and the following places have been selected as the most suitable for factories, viz. :—

Lahore	2	five-ton machines.
Delhi	1	„ „
Mooltan	1	„ „
Rawalpindi or Loodiana	1	„ „

The General Ice Factory Company, Limited, have undertaken to pay interest on share capital subscribed, at the rate of six per cent. per annum, until the factories are completed and made over to the Punjab Company.

It is intended to erect factories in such other cities in the Punjab as the experience of working the above-named factories may show to be expedient.

Factories under the auspices of the General Ice Factory Company, Limited, have been in working operation for the last two years in the three Presidency towns of Bombay, Bengal, and Madras, and dividends at the rate of from 10 to 20 per cent. have been earned and paid to the Shareholders in the respective Companies ; and these Companies' shares are now at a considerable premium.

Prospectuses and form of application for shares can be obtained from the Company's Indian Branch Office, Eldon Road, Bombay, and from Mr. H. K. W. ARNOLD, Lahore.

COMMERCIAL INTELLIGENCE

SATURDAY EVENING, MAY 21.

Consols in London yesterday recovered the previous day's decline of ¼, and stand again at 102⅞. French Rentes are ¼ lower at 120. The Indian 3½ per cent. Sterling Loan is unchanged at 104¼. Although Silver is not yet quoted lower, the effect of the adjournment of the Paris Conference till 30th June is apparent in the reaction in Enfaced Rupee Paper, Fours being ⅛ lower at 84⅛, Fours-and-a-half ¼ lower at 91¼.

In the General Produce markets there is no change. Linseed is weaker for Calcutta qualities, firmer for Bombay. Wheat comes dull and easier.

Piece-goods in Manchester continue quiet but steady, yesterday's quotations being the same as on Tuesday last.

The Liverpool Cotton market yesterday closed steady; sales 10,000 bales, spot prices unchanged. Americans to arrive 1-32d. higher. To-day's market comes firm; sales again 10,000. Americans 1-16d. higher on the spot, and again 1-32d. up in arrivals. Surats, however, show no change. In New York yesterday ready Mid-Uplands were 1-16 cent. August shipment 10 points higher, and to-day ready is again 1-16 up at 10⅞; August 3 points higher at 10·82 cents per lb.

The receipts at the American ports continue remarkably heavy, and the figures of supply, as shown by our weekly comparison as given below, show an enormous excess over previous years. The total visible supply for all Europe shows a slight decrease during the week, but as compared with last year is half a million and with the previous year a million bales larger. In the face of such supplies as these, there is little probability of higher prices so long as the reports regarding the New American crop continue at all favourable.

The American figures to date give the following comparisons with the two previous years:—

	1881.	1880.	1179.
Week's Receipts	42,000	26,000	19,000
" Exports to U. K.	33,000	28,000	38,000
" " to Continent..	29,000	16,000	400
Total receipts since 1st Sept....	5,451,400	4,706,600	4,361,500
" Exports to U. K. "	1,401,600	2,202,000	1,923,700
" " to Continent "	1,581,700	1,176,900	1,362,400
" Stock in the Port	531,000	469,000	269,000
Saturday's Receipts.....	7,000	2,800	2,700

The total visible supply of cotton for all Europe on the 20th instant compares with the corresponding date of the two previous seasons as follows:—

	1881.	1880.	1879.
Total supply of all kinds..	2,930,000	2,425,740	1,946,680
" " " Surats.....	515,000	530,200	426,130

For the U. K. only the figures are:—

Stock in Liverpool	983,000	737,210	566,480
" London	49,000	47,250	44,270
American Afloat	120,000	219,000	181,000
E. Indian "	106,000	171,000	170,000
	1,258,000	1,174,460	964,750
Price of Mid-Uplands	5½d. 6 13-16d.		7 1-16d.
" Fair Dhollera.....	4 1-16d.	5½d.	5½d.
Difference..	1 13-16d.	1 11-16d.	1 7-16d.

Exchange this morning opened weak with a decline of 1-32d. from yesterday's closing rates, but during the day the weakness rapidly increased, and a further fall of fully 1-16d. has been established. Even at the decline there are not many bills offering, and it is evident that people generally regard the adjournment of the Conference as equivalent to its failure. Closing quotations are:—

Bank Bills on demand.....	1s. 7 11-16d.	Per rupee,
Do. telegraphic	1s. 7 31-32d.	"
Do. 3 months' sight 1s. 13-16d.		"
Credits, 3 " " ..	1s. 7 29-32 to 15-16d	"
Documents, 3 " " ..	1s. 7 15-16d.	"
Francs, 3 " " ..	1s. 27.	"

On Calcutta we still quote demand drafts at par, 60 days' sight at ¼ per cent. discount.

Government Paper has been decidedly quieter owing to the lower quotations from home, and values have now receded to Rs. 102⅜ for Fours and Rs. 110½ for Fours-and-a-half.

Shares are generally firm but not active. Bank of Bombays are unchanged at Rs. 746. Colaba Land shares have advanced to Rs. 995. Press Companies show an advance of Rs. 25 in Apollo, but Mofussil Company are Rs. 5 and Prince of Wales Rs. 15 lower. Spinning and Weaving Mill shares are Rs. 5 to Rs. 10 per share higher and very firmly held. Bombay Ice Co. are Rs. 3; Kurrachee Landing and Shipping Rs. 5 higher.

Cotton.—The somewhat firmer accounts from home and the comparatively short supplies of Dholleras coming forward have rendered the market very firm again to-day, and although there has not been any great amount of new business doing for export, high prices have been paid for covering in local sales, Good Dholleras being now quoted at Rs. 185.

Seeds and Wheat are firm at unchanged prices.

Freights are firm but quiet. For Liverpool we still quote 40s. by steam and 50s. by sail. A June loading steamer has been fixed at 4s. 3-9d. U. K., Continent, or Mediterranean.

Piece-goods are quiet with no quotable change.

Coals are dull with sellers of Davison's and Cardiff at Rs. 15-8 and Rs. 16-8 respectively, buyers at as. 4 per ton loss.

TELEGRAMS.

THE WAZIRI EXPEDITION.

(FROM THE PRESS COMMISSIONER.)

SIMLA, MAY 21.

On the 18th instant, General Gordon marched through a difficult part of Shakto from Barromand to Mandwom. The march was quiet and unmolested and the camp was pitched at Mandwom, belonging to the Abdulla section of the Mahsuds. On the 19th, he marched to Karkanmem, which is outside the Mahsud territory, and encamped in Tori Khel lands, in the mouth of the Shakto, two or three miles beyond the border. He intended to re-cross the border, and encamp on the 20th at Yani Khel, a frontier post, and was to reach Edwardesabad on the 22nd. The valley has been completely surveyed, and maps made of it.

SOUTHERN AFGHANISTAN.

It is reported that there is a gathering of Ayoub's partizans at Maozad. From Herat reports continue to arrive that Ayoub is collecting a force and materials of war, and that the Unhammadzai Sirdars and other Barakzais of Herat are co-operating with him.

ILLNESS OF THE GOVERNOR OF MADRAS.

(FROM OUR OWN CORRESPONDENT.)

MOUNT ROAD, MADRAS, MAY 22.

The Governor's Surgeon issued a bulletin on Saturday morning at Ootacamund, stating that the Governor passed a good night. The condition remains unchanged; symptoms still give cause for anxiety.

A telegram from Ootacamund this morning states that the Governor is much worse. The case is very grave.

THE POONA MUNICIPALITY.

(FROM OUR OWN CORRESPONDENT.)

POONA, MAY 22.

At a crowded meeting in Moroba Dada's Wada it was unanimously resolved to bring civil action against the Poona Municipality for illegal levy of enhanced octroi, and also resolved to send a deputation to Government. A public subscription list was opened to meet the expenses. The agitation is very strong; Municipal oppression is unbearable.

THE SILVER CONFERENCE.

LONDON, MAY 21.

The Marquis of Hartington (Secretary of State for India), in reply to a question in the House of Commons last night, said that the proposal of Sir Louis Malet at the meeting of the Metaric Conference on the 17th inst., that India would maintain a free mintage of silver during a period to be afterwards agreed upon, was in accordance with the instructions he had received from the Government, but the proposal was solely conditional upon a binding agreement to a similar effect being made between the Powers. The Government has received a telegram from Sir Louis Malet, in which he explained that the opinion he had expressed on the above occasion, upon the abstract question of bi-metallism, was purely personal.

A GREAT many extra rewards and honours in connection with services in Afghanistan are, it is stated, to be announced on the Queen's birthday.

THE storm on the 10th instant at Calcutta, did more damage in the Botanical Garden than have all the storms since the cyclone of 1867 put together. Upwards of three hundred large trees (including several big mahoganies) have been either broken off close to the ground or uprooted, while many others have been more or less seriously maimed. The beautiful conservatories have also suffered considerably.

LIEUT.-COLONEL A. H. E. CAMPBELL (2nd Madras Cavalry), "Officer commanding the Resident's Escort" at Hyderabad for over ten years, will retire from that post ere long, it is expected to take up a more lucrative appointment in the Nizam's service.

WE are informed by a contemporary that a report is now being prepared, showing the effect of the late severe campaigning upon the different races of men who served in our army in Afghanistan. It is almost needless to say that the flesh-eating sepoys bore hardship and fatigue more easily, and enjoyed better health than the men who rejected animal food.

A CALCUTTA paper believes it has been practically settled that Mr. Rivers Thompson is to be the next ruler of Bengal.

THE salary of the Dewan of Mysore, Mr. C. Rungacharloo, C.I.E., has been fixed at Rs. 3,000 per mensem. Sir T. Madhava Rao, the Dewan of the Baroda State, draws a salary, of Rs. 5,000 per mensem.

OUR local contemporary stated in its leading columns on the 27th of last month that it spent more money on private telegrams than all the other Indian journals put together. In the same issue, at the head of its telegram column, appeared the following announcement:—

"THE CITY AND SUBURBAN

(FROM OUR SPORTING CORRESPONDENT.)

LONDON, APRIL 26.

The City and Suburban was run to-day, with the following result:—

Buchanan	1
Prestonpans	2

Seven horses ran."

We hope this telegram was got at a moderate expense. For it turns out that the City and Suburban was run on the 27th (*not* the 26th); that twenty-four horses (not seven only) started; and that instead of Buchanan and Prestonpans being first and second respectively, neither horse named was amongst the first three. Lord Alington's Bend Or, ridden by F. Archer, was first, Mr. J. R. Keene's Foxhall second, and Mr. Y. R. Graham's Post Obit third. Mr. W. S. Crawfurd's Buchanan and Mr. F. Gretton's Prestonpans both started, but only came in eighth and tenth, before them being, besides the three first, Petronel, Henry George, Peter, and Berzence, in the order named. We do not doubt that the *Times of India* will be able to explain this mystery; but it appears to be necessary to remind our contemporary that an explanation is due.

THE *Civil and Military Gazette* explains how "timely precautions have been taken by Colonel Beadon, Deputy Commissioner, against the occurrence of a disturbance between the Hindus and Mahomedans at Lahore. It must be remembered that the moollahs and pandits are always the cause of disturbances, and once they are properly managed there need be no anxiety. With this view Barkat Ali Khan called a select meeting of the Anjuman-i-Islamyah on Monday evening, to which the principal moollahs were invited. Speeches were made in which the action of the inhabitants of Mooltan, and those few discontented people who excite the public to raise disturbances under the generous and tolerant British Government was condemned, and it was unanimously resolved that at a general meeting of the Anjuman, the principal moollahs of the city should be asked to give conciliatory counsel to the Mahomedans and not to excite them against the Hindus. Similarly we hear that the Hindus are trying to suppress the *Jawab Katha Soloi ka*. It is a fact worth mentioning that the pamphlet in question was printed eight months ago at the press of a Mussulman proprietor, who, now that it has been published after the alleged death of its author, is, we hear, going to prosecute the bookseller who printed it.

A CURIOUS story comes from Kabul, to the effect that some little time ago there crossed the Oxus from Bokhara a Russian in the guise of an Asiatic, who told Ishak Khan, the Ameer's Governor of Balkh, a very strange tale about his having embraced Mahomedanism and left Russian-Turkestan in order to be free from the trammels of Christianity. Although he openly professed the faith of Islam in Bokhara, the king of that country did not think fit to allow him to remain among his people, and hence his journey to Afghanistan. Ishak Khan, on consulting the Ameer, forwarded him on to Kabul, where he was received in Durbar and made a public confession of faith. According to popular report, he was a pure Russian and his bearing was that of an officer. He expressed a wish to be allowed to remain in Kabul, but it was resolved to send him to Mecca by way of India. It is rumoured he is to be sent first of all to Jellalabad, to undergo the peculiar rite which will make him a true believer, and he will then be escorted through the Khyber to Peshawar. The *Pioneer* suggests that perhaps our officials may discover who the adventurer is when he crosses our North-West Frontier.

"The *Journal of the Anjuman-i-Punjab* may perhaps be taken as the most reliable medium for the expression of intelligent native opinion in the Punjab Province, and this is what it says about Hyat Khan's case:—"Whilst strongly sympathising with those very few newspapers which, from entirely disinterested motives, have taken up the cause of Muhammad Hyat Khan, we would beg our readers to consider how reluctantly Government itself took up some of the charges against a public servant whom it had so long honoured through good report and evil report whom, above all his native colleagues in the Civil Service, it had pushed into the covenanted ranks, and on whom it had conferred the most delicate and responsible duties, not to speak of the decoration of the Star of India. To confess itself egregiously mistaken in the character of one of its most trusted servants, required no small moral courage on the part of the Government, and is no small evidence of its honesty of purpose. The secret manner in which the inquiry was conducted, and which we have not sufficient grounds for approving, was, we are sure, alike in the interests of the accusers and the accused, for, at the worst, it would have enabled Government to get rid of Hyat Khan in a manner least painful to his feelings, or, if he cleared himself, to re-instal him with double trust. This, we fear, his advisers have rendered more difficult by their attempt to exert pressure on the official Government of India on a pending case through the Press. Still we are convinced that if it be at all possible to acquit Hyat Khan, he will be acquitted—a result in which, in the interest of native aspiration to higher employment as well as in his own, we shall heartily rejoice, but we fear that, with the best wishes, Government will be powerless in the matter, except so far as to give effect to a judicial decision."

THE *Pioneer* states that "the work of army reorganization is being rapidly carried on by the Executive Council of the Government of India; and we understand that by the 1st of January, 1882, the scheme of four Army Corps for India, in place of Presidency Armies, will be put into execution. The Home Government are eager to carry out the reform; and as they will soon have in their hands the recommendations of the Indian authorities, they will be enabled to sanction the reorganization without delay. Now that Quetta has become a divisional command pertaining to Bengal instead of Bombay, some modification of the original scheme propounded by the Army Commission will be necessary. We suppose that the limits of the 2nd Army Corps (the Punjab) will be extended southward towards Jacobabad, beyond Rajanpore to Sukkur, Jacobabad, and Quetta. The absorption of the Punjab Frontier Force will necessitate compensation being given to the officers who now administer it under the local Government; but they will doubtless be provided for in some of the new commands which will be created. Once the four Army Corps have been formed, and their limits defined, it is believed that the routine work of the whole of the Indian forces will be much simplified. It is doubtful if a reserve will be formed for the Native Army."

ON account of its extensive trade with British Burmah, India is interested in the state of affairs in the south-west district of China. It will be remembered that towards the end of last month information reached the Government of India to the effect that the cotton trade between Bhamo and Yunnan had been stopped. This was in consequence of a revolt which was said to have broken out in the Chinese province. The statement has not, so far as we know, been contradicted. An up-country contemporary recalls the fact that the rebellion, if it has occurred, is the second which in the space of twenty-five years has devastated this fine portion of the Chinese empire. The first occurred in 1856 and lasted seven years, during which millions of persons are supposed to have died of famine and pestilence caused by an incessant guerilla war. During those years the Pekin Government was too much occupied with domestic troubles nearer home to be able to conduct a systematic war in remote Yunnan. The method adopted was to induce governors and petty chiefs hostile to the Panthays to carry on war on their own account. It was a kind of land piratееring. During all that time trade between South-Western China and Upper Burmah was suspended. It has been gradually recovering in the interval since 1873, when the Panthays were supposed to be pacified. It would be greatly to the advantage of the world if the issue between the Pekin Government and its rebellious subjects could be settled once and for all. The *Civil and Military Gazette* suggests the exercise of British influence. "It should matter nothing whatever to England, even if the rebels succeeded in setting up an independent state of their own. Perhaps we should rather say this would be, for Eng'and, the more welcome solution of the two. Those who are in any way acquainted with the history of the last revolt are aware that the rebel governor, a man of great intelligence and energy, offered England the most liberal concessions as regards commerce, trade dues, right of residence, and domestication, on condition of being recognised as an independent ruler. It is also well known too that the people of Yunnan are different in race, customs, and religion from the rest of their fellow-subjects. The province is known to possess a singularly fertile soil, and vast natural resources in other respects; and those who are most conversant with the subject assure us that a railway from Bhamo, on the Burmese frontier, to Moulmein, a distance of only ninety miles, would prove one of the most remunerative lines in the world."

PROFESSOR and Mrs. Ujfalvy, the distinguished Hungarian travellers, were expected at Lahore on or about the 18th instant. According to the *Journal of the Anjuman-i-Punjab*, they intend to visit Gilgit and to reach Wakhan by Yasin and Chitral, then to enter Yarkand by the valley of Tashkurghan and, finally, to return to India by way of Thibet. Gilgit affairs are by no means in a settled condition, whilst the Chinese Governor or Amban of Yarkand seems to have orders not to allow any European to enter that territory. Under these circumstances, and especially as Professor Ujfalvy is accompanied by his courageous wife, it appears to be unwise to let them court the fate of Hayward in 1870, although since that date Major Biddulph, supported by all the resources of Government, has successfully travelled to Chitral and back. The proper course for Professor Ujfalvy was to have started for the Pamir when he was at Tashkand, but on this side there are fewer conveniences for travelling, whilst the season of the year is also somewhat against the explorers.

MRS. SUTER, who, together with her husband, was seized and carried off by brigands at Isvora, Turkey, the Lahore paper says, is the eldest daughter of the late Mr. Richard White Stevens, who was for five years the Agent of the Scinde, Punjab, and Delhi Railway Company.

RUSSIAN tribunals are frequently called upon to try cases involving quaint and eccentric breaches of the law, but, until the other day, it is probable that no imperial court of justice had ever been required to pronounce sentence upon a person prosecuted for the entirely novel offence of "symbolical misdemeanor." Such, however, was the crime laid to the charge of one Mme. Frieber by a lady named Wassilieff, the gravity of whose grievance—an unusual one, to say the least of it—was held by the judges of the Twenty-second St. Petersburg District Court to justify them in sending the offender to jail for three months. It appears from the evidence adduced at the trial that Mesdames Frieber and Wassilieff had once been fast friends, but that, early in the summer of last year, they had quarrelled and vowed mutual enmity thenceforth and for ever. Mme. Frieber, on the Russian 1st of January, forwarded to Mme. Wassilieff a full-sized coffin, covered with a black velvet pall, and containing a winding-sheet, as a New Year's gift, symbolically significant of her opinion that the lady in question had cumbered this earth long enough, and would do well to quit it for some other sphere. Mme. Wassilieff, annoyed by so plain a hint, returned the coffin to its sender, and brought an action against her in the district court with the above result.

THERE is (says the *Indian Daily News*,) a ridiculous side to every thing. It was left to a Hindoo lad to find out the ridiculous side of so high and pure a movement as preaching the Gospel to the masses in an oriental city. He arrogated to himself a mission to preach, and a sort of despotic right to preach from a selected locality. We once had occasion to say that no native is a Conservative before, and no native a Radical after, thirty. The Hindoo youth we allude to, with the arrogance of immaturity, claimed a particular bench, on some vague notion of the right derived from use. He claimed, in fact, a prescriptive right, though he may not have known that he was doing so. But while we admit the vast difference between this youth and missionaries, men of experience and knowledge of the world, men of pure lives, and a high conception of duty, we also admit the very real character of the question this Hindoo young man has raised. If the right of open preaching is to be admitted, it must be admitted for all sects, all religions. It is quite impossible to admit the right, if claimed by Dr. Thoburn; and deny it, if claimed by such men as Keshub Chunder Sen, or Pundit Shivanath Shastri. At the same time, it is almost equally impossible to admit the right of mere youths and boys to parody earnest work, and to force on breaches of public order, when their very crude claims are baulked. In this particular case of the row in Wellington Square Dr. Thoburn was preaching, and his congregation presented a group, which not only preserved order, but by their attitude actually assisted the police in putting down what was nothing more than an outbreak of rowdyism. It is easy to see that, if perfect freedom be allowed in the matter of open-air preaching, young Hindoo and Mahommedan, like those fined on Monday last, would soon, by creating disturbances, render preaching impossible, by making every attempt thereat a signal for some opposition lecture and some outbreak. We confess that this is a very grave practical difficulty, and that we do not see any way out of it, but that adopted by the Commissioner of Police; and we shall be surprised if the missionaries do not assist him in this matter—that is, assist him to put down such absurdities as Hindoo lads setting up opposition preaching within earshot of men about whose purpose and aims there can be no possible doubt.

THE PLAGUE IN PERSIA.

(FROM THE PRESS COMMISSIONER'S OFFICE.)

THE following is an account given of the plague in Persia by Dr. Zitterer, the Quarantine Inspector, with a list of cases up to April 7th:—

The disease called plague appears to have originated in the district of Jaara and among the neighbouring Arab tribes within the Kamiakamieh of Shamieh, a dependency of Hillah, about the 15th of February; and the first official information was received from the Governor-General of the Vilayet on the 3rd day of March, notifying the necessity of establishing quarantine at Mahawil, Nesajh, and Samawah to prevent the disease spreading to other places, and afterwards, on the 14th March, from the Board of Health at Constantinople, ordering that fifteen days' quarantine be enforced at Busreh.

According to popular rumour, the disease first attacked a family of Arabs who had eaten a diseased sheep, and most of the persons who ate of this mutton afterwards died; but it is also thought that the early and high rise of the rivers and the consequent excessive moisture acting upon people already much reduced by two years of great privations, almost amounting to famine, contributed to the origin of the disease. In regard to the symptoms, it appears that in addition to very strong fever there are glandular enlargements in the groins or neck of most of the cases, also that in some black spots appear upon the skin, and death occurs in from twenty-four hours to three days from the time of seizure. Only a very small proportion of those attacked are stated to recover.

Up to the present time there has been no case at Bagdad or Kazmain.

On the 17th March plague was reported at Kufa, and a cordon of troops were placed round the infected locality in addition to the enforcement of fifteen days' full quarantine.

On the 25th March, Dr. Zitterer reported the presence of plague at Nejef in Haji Abdul Shalah's family, twelve of whom were attacked and ten died; also that the inhabitants of the city were secretly burying their dead, and that he could not obtain full information regarding the numbers attacked. A military cordon was also placed around this city.

On the 27th March, the disease was discovered at Shihab near Jaara.

On the 2nd April the disease was reported to have broken out in the village of Dissen, in the Shamieh, near Jaara, and to be spreading by contagion among the Arab tribes.

On the 4th April, the quarantine reports from Nejef stated that the disease was decreasing and that no new cases had been discovered at Kufa, but on the 5th and 6th a larger number of persons appear to have been attacked than on any previous day.

According to the daily reports received at Bagdad, the total number of persons attacked have been 756, with the high mortality of 537. Dr. Zitterer gives the total number of deaths recorded as 1,035 (this total includes the deaths at Aboo Sakrub and Muskhab, which were not included in the daily lists), but estimates the deaths as 2,000. On account of the reluctance evinced by the people to report any cases of sickness; many persons are said to have been buried in gardens and in the lower apartments of the dwelling houses.

My breasts were losing daily the allowance required to nurse my baby, who was falling away by the eye and I found myself in the sad alternative either of weaning him at a season too dangerous for his health or to see him dwindling away from want of food. On this emergency I heard of *Dusart's Syrup of Lactophosphate of Lime*, which I took. What was not my delight, seeing in a short time my breast restored to a plentiful secretion, and my baby improve in strength and health. I owe this public testimony to the inventor of this precious medicine.—MRS. LOUNGER, Winchester.

ASSAULT.—Yessoo Manaba was on Saturday last convicted by Mr. Dosabhoy Framjee of assaulting a woman named Suckoo. He was fined Rs. 15.

THEFT.—A woman named Suckoo was on Saturday last convicted by Mr. W. Webb of stealing Rs. 63 in currency notes and cash, the property of Ragoo Savoo. She was sentenced to four months' rigorous imprisonment.

SUICIDE.—A Coroner's inquest was held on Saturday last, at the J. J. Hospital, on view of the body of Dewjee Jairam, aged 25 years, who died from the effects of a poisonous dose of opium which he had voluntarily administered to himself. A verdict to that effect was recorded.

DROWNED.—A Coroner's inquest was held yesterday at the Prince's Dock on view of the body of Alainee. Deceased, a day-labourer employed on board the steam-ship Scatos, accidentally fell overboard that vessel into the dock and was drowned. A verdict of accidental death by drowning was recorded.

A SUSPICIOUS CHARACTER.—Bhambao Yessoo *alias* Wittoo Rama, a noted character, was on Saturday last convicted by Mr. Dosabhoy Framjee of having in his possession sundry articles, consisting of handkerchiefs, a *dhotur*, a cap, and a knife, reasonably suspected of being stolen or fraudulently obtained. Being an old offender, he was sentenced to three months' rigorous imprisonment.

DISHONEST SERVANTS.—Luckmidas Oodhowjee and Luckmidas Poonja, servants to a cloth merchant named Dyaram Hurjeevun, whose place of business is at Hanooman Lane, were on Saturday last convicted by Mr. W. Webb of stealing a quantity of cotton handkerchiefs, of the value of Rs. 80, the property of their master. They were each sentenced to eight months' rigorous imprisonment.

THEFTS.—Feroze Abdoola, a ship's day labourer, was on Saturday last convicted by Mr. W. Webb of stealing a bottle of champagne from the steam-ship Sestos. He was sentenced to six weeks' rigorous imprisonment.—Mabrook Moobaruck was also convicted on Saturday last by Mr. Dosabhoy Framjee of stealing sundry articles of wearing apparel, belonging to Habiboo a Bismilla. He was sentenced to six weeks' rigorous imprisonment.

AURANGABAD (DECCAN).—A correspondent writes: —"The heat this year is unusually severe, the thermometer gauges 95° at 9 a.m. and at 2 p.m. 103° Dust-storms are frequent. The station is considered healthy, although there are several cases of fever, measles, and bronchitis both in the City and Military Cantonment. The Nizam's P. W. Department are repairing the old water-works from *Pulsi* to the City, under the supervision of Messrs. Fitch, C. E., and Lutchmiah, Executive and Assistant Engineers. Mr. Rose, Sub-Engineer, of the Imperial P. W. D., is, I hear, about to be transferred to Berar from this station. The heat at Jalna (40 miles hence) is much more oppressive than here. A private letter from Hingolee informs me that the heat is intense—109° in the shade."

EXPOSING DISEASED BEEF FOR SALE.—Ismail Rahim, a servant to a Mahomedan butcher, was on Saturday last charged, at the instance of Mr. P. C. Higgins, Superintendent of Markets, before Mr. W. Webb, with exposing for sale at the Crawford Markets diseased beef containing systic worms, (alleged to have been obtained from the Commissariat Department), and intended for human food, the same being unfit for such food. Mr. Higgins produced a letter from Dr. Weir, Health Officer of the Municipality, certifying that the beef in question was diseased and contained worms, and was consequently unfit for human food. The witness further stated that there were two other cases of a similar nature, which he would bring up for investigation before his Worship. The prisoner admitted that the beef contained worms. The Magistrate adjourned the further hearing of the case to the 2nd proximo.

DEATH OF A DOCTOR FROM HEAT APOPLEXY.—A Coroner's inquest was held yesterday afternoon at the P. and O. Company's Dockyard, Mazagon, on view of the body of Dr. Reginald Vernon Musgrove, the Surgeon of the P. and O. s. s. Lombardy, who died on Saturday night on board his vessel from the effects of heat apopiexy. Fredrick Hyde, the chief saloon waiter, and Dr. Walton Gordon Gray, the Surgeon of the P. and Company's steam-ship Mongolia, were examined by the Coroner. The former in his evidence said that the deceased was about thirty years of age. On Saturday evening last he heard deceased complain of headache and fever. He had heard that deceased had consulted Dr. Gray that evening, and that he had been treated by him. The witness stayed with the deceased until the time of his death, which took place at 11 p. m. that night. Dr. Gray in his evidence stated that the deceased complained of headache, and said that there was something the matter with his heart, which on examination was found to be in a tremulous action. The deceased suffered from high fever. He was conscious when he was first seen by the witness, but on being sent for at about 11 p. m. witness found him dead. Dr. Sidney Smith, the Coroner's Surgeon, was of opinion that the death of the deceased was caused by heat apoplexy. The jury upon the evidence adduced returned the following verdict: "That the death of Reginald Vernon Musgrave was caused by apoplexy."

TREASURE TROVE IN CAVEL STREET.

DURING the execution of the drainage works in Cavel Street, Kalbadevi, about six weeks ago, one of the labourers came across a bag of money, which would seem to have been buried there some centuries back. The coins were of silver, about a quarter of a tola in weight, with letters either in Hebrew or Egyptian language on one side and a male effigy on the other. They were about 105 in number packed up in a canvas bag, which was greatly decayed; the coins bearing signs of antiquity. The finding of the stones this construction of finally was found to be so bad that the safety of the men employed in the work rendered it necessary that the work should be done from the coping of the wall internally; but pending arrangements being made with Government for the use of the Dock, which may necessitate some changes in the walls, the openings made have been filled in. Resolution—To be recorded.

Read letter from the Resident Engineer, dated 10th May, submitting for the consideration of the Trustees the desirability of obtaining another assistant for his department to supply Mr. Bedford's place, and suggesting that one be obtained from England on a three years' engagement at Rs. 400, Rs. 450, and Rs. 500 per mensem. Read minutes of members of the Establishment Committee. Resolution—An Assistant Engineer should be advertised for in the Indian papers without stating the salary, which should be fixed according to qualification. And simultaneously the Consulting Engineer should be requested to take steps to obtain an Assistant Engineer on a three years' engagement at a salary of Rs. 400, Rs. 450, and Rs. 500 with passage paid either way. The Consulting Engineer should further be requested not to close with any applicant until he communicates with the Trustees, as they may meanwhile be able to obtain an assistant in India.

Read letter from Heerjee Hunsraj, muccadum to Messrs. Sigg Sulzer and Company, applying for a lease for two years of fifty kattles, *i.e.* 25,000 square feet, land on the Dock estate in rear of G shed whereon to build a temporary shed Resolution.—Care should be taken that the site fixed upon does not interfere with the re-arrangements of the Dock fencing, and that the lease does not carry with it any right of way through the fence or G shed into the Dock. The Secretary to address the Agents, Framjee Petit Spinning and Manufacturing Company, Limited, dated 11th May, declining to lease 5,333 1-3 square yards land at the Mazagon at the rate offered by the Trustees, viz., 8 annas per square yard per annum, but offering to lease 2,651 1-9 square yards for 99 years at 4 annas per square yard per annum. Read correspondence between the Mazagon Company and Government, to show that the latter were at the time of the purchase of the Mazagon property prepared to let the Press Company have additional land at a rent of 4 annas per square yard per annum. Read minutes of members of Land Committee, in which the re-arrangements of the Dock tenancies were discussed, and it was resolved to declare that the reduced area now applied for be leased until the date of the expiry of the existing leases at a rent of 8 annas per square yard per annum, which was proposed as an amendment by Mr. Kittredge that the land be leased for 99 years at 4 annas per square yard per annum. The amendment was then put to the vote and carried, the motion was thereafter carried. Read letter from the Dock Superintendent, dated 29th April, submitting a letter from Dossabhoy Merwanjee Framjee, complaining that the fees charged on boxes of soap measuring 1-3rd of a cubic foot are the same as for cases measuring up to 3 cubic feet, and asking for some reduction be made. Read minutes of members of Dock Committee recommending that, as is already done in the case of wharfage fees, the dock charges on soap and candles be levied at the rate of 1 anna per cubic foot. Resolution.—Agreed to.

Read letter from the Executive Engineer, Municipality, dated 28th February, asking permission to occupy temporarily a portion of the Santa Cruz property for the storage of road metal. Read memo by the Traffic Manager, dated 25th February, stating that 2,500 square feet are occupied by road metal; and suggesting that rent at the rate of 8 annas per square yard per annum be charged. He also states that the Municipality has constructed a temporary cart road on Trustees' property for the conveyance of road metal. Read memo. by the Resident Engineer, dated 5th May, stating that 149 square yards is occupied internally in question, but recommending that no charge be made for it, but that it should be given up whenever required by the Trustees, and that the materials should become the property of the Trust. Read letter to the Executive Engineer, Municipality dated 2nd May, intimating that 8 annas per square yard per annum will be charged for the land occupied for the storage of metal. Resolution—The recommendation of the Resident Engineer with regard to the temporary road is agreed to. Read letter to the Traffic Manager, dated 28th April, authorizing him to let the ground-floor of the bonded warehouse to Messrs. Ralli Brothers till the 15th June next at the rate of Rs. 650 per mensem, and stating that the warehouse must be vacated by the time named, so that the warehouse may be made available for the storage of uncleared goods. Read letter from the Traffic Manager, dated 12th May, reporting that he has arranged to rent the ground floor of the bonded warehouse to Messrs. Ralli Brothers at Rs. 500 a month, and that a higher rate could not be obtained because the warehouse is not so lofty as the ordinary sheds. Read letter to the Traffic Manager, dated 13th May, stating that Messrs. Ralli Brothers have informed him that it will not suit their purpose to rent the ground floor of the warehouse unless they can be allowed possession till the 5th July. Resolution.—The ground floor of the bonded warehouse may be let to Messrs. Ralli Brothers until the 15th June next at Rs. 500 a month.

Read letter from the Resident Engineer, dated 11th May, stating, with reference to the repairs to Sassoon Dock walls, which have been sanctioned, that the west wall was opened out in three places from about the mean sea level to low water ordinary spring tides, and that after the removal of the face stones the construction of the wall internally was found to be so bad that the safety of the men employed in the work rendered it necessary that the work should be done from the coping of the wall internally; and reporting that pending arrangements being made with Government for the use of the Dock, which may necessitate some changes in the walls, the openings made have been filled in. Resolution—To be recorded.

Read letter from the Resident Engineer, dated 9th May, reporting a breakdown in the engine at Prince's Dock on the evening of 5th instant, and stating that the repairs to the engines started again after about 6 hours' stoppage of night work. He states that the engine had been running continuously since the pumps were started, and that when the small auxiliary engine expected to be ready in two months had been fitted up, the inconvenience from such stoppage will be lessened. Resolution.—To be recorded.

Read a letter from the Dock Superintendent, dated 4th May, asking that two flat trucks to carry twenty-four lamps on top and twenty-four lamps underneath be constructed. He states that at present the lamps required by ships and at the sheds are carried by hand, whereby much labour and loss of time are occasioned. Read memo. by the Resident Engineer, dated 11th May, estimating the cost of two trucks such as are required at Rs. 200. Resolution.—Sanctioned as a charge against revenue.

Read a letter from the Dock Superintendent, dated 12th May, reporting that seventy-two boxes of ammunition were landed on the 12th instant at the Prince's Dock ex hired Transport Ellora, being part of the equipment of the mule battery brought by the steamer. He inquires how far he is empowered to prohibit the landing of ammunition under such circumstances. Resolution.—Copy of the Dock Superintendent's letter should be sent to Government with reference to Government Resolution No. 243, dated 28th April. Read a letter from the Agents, Framjee Petit Spinning and Manufacturing Company, Limited, dated 11th May, declining to lease 5,333 1-3 square yards land at the Mazagon at the rate offered by the Trustees, viz., 8 annas per square yard per annum, but offering to lease 2,651 1-9 square yards for 99 years at 4 annas per square yard per annum. PEPPER'S QUININE and IRON TONIC
contains an unvarying amount of quinine iron. It possesses all the powers of these valuable tonics in banishing diseases and symptoms traceable to weakness, a low state of the nervous system, enfeebled condition of the body, and derangement of the general health.

PEPPER'S QUININE and IRON TONIC
strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC
rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels langnor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections and in Wasting disease, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 9s. Sold by Chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain between the shoulders, headache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India Australia, the Cape, and Colonies generally.

LOCKYER'S SULPHUR HAIR-RESTORER
will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by an instantaneous dye, and does not injure the skin. Large bottles, 1s. 6d.—Lockyer's is equal to the most expensive hair-restorer.

LOCKYER'S SULPHUR HAIR-RESTORER
is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Recommended for destroying scurf and encouraging growth of new hair.

LOCKYER'S SULPHUR HAIR-RESTORER.
—Sulphur being highly prized for its stimulant, cleansing, healthful action on the hair glands, LOCKYER'S RESTORER is strongly recommended. It is most agreeable in use, and never fails in its action on the colour glands, always restoring and maintaining that which has been lost. No other hair dressing is a requite. Large Bottles, 1s. 6d. Sold by Chemists, Hair-dressers, and Perfumers in London, the country, and throughout the world.
Lockyer's is equal to any of the high-priced preparations.

LIVER COMPLAINTS.

H. H. THE NIZAM'S STATE RAILWAY.

ADVERTISING AT RAILWAY STATIONS.

THE PROPRIETOR of the *Bombay Gazette* Press, having leased from the NIZAM'S STATE RAILWAY Company the exclusive right of advertising at all the Railway Stations belonging to the Company, is prepared to contract with parties desirous of posting notices or advertisements on the lines.

The Cantonment of SECUNDRABAD, as is well known, contains the largest military garrison in India—a garrison comprising over 5,000 British and native troops. Contiguous to it is the Cantonment of BOLARUM garrisoned by two regiments and one Battery of the Hydrabad Contingent, all officered by Europeans. South of Secundrabad, about 4 miles, are the suburbs of Hydrabad, containing the Nizam's regular troops, about 5,000 in number, officered mostly by Europeans—besides a large civil population. It would manifestly be advantageous to firms to advertise at the stations on the above railway, the most important of which are SECUNDRABAD, HYDRABAD, GANGAWARUM and TANDUR.

The announcements may be in English or in any of the NATIVE LANGUAGES.

The advantages which Railway Stations present as a means of bringing intimations of all kinds before the public have been demonstrated in England by the extensive use which is made by Advertisers, of every station, great and small, along every one in the United Kingdom.

INSURANCE COMPANIES, SHIPPING COMPANIES, HOTELKEEPERS, MERCHANTS, TRADERS and others who wish to force their business on the notice of the public, all alike value the privilege of *Railway Station Advertising*.

There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and increasing number of Native Railway Passengers on the two trunk lines of Western India, Native Merchants, Traders, &c., seeing that they have the privilege of advertising in their own language, would find the publication of their announcements at Railway Stations an infallible means of extending their business.

Advertisers can select the Stations, at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely *moderate scale* to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers, may be printed at moderate charges in ENGLISH or any of the NATIVE LANGUAGES at the *Bombay Gazette* Press. Estimates on application.

RATES.

Boards not exceeding 2 feet long and 2 feet broad Rs. 2 per month. For every additional square foot annas 8.

Thus a firm exhibiting a board, say 4 feet square, will have the advantage of having their business advertisement read by thousands of Passengers on one station platform for the trifling monthly expenditure of Rs. 2. Parties advertising on six Stations or more will be allowed a discount of ten per cent.; on twelve Stations or more twenty-five per cent.

The boards to be delivered at the *Bombay Gazette* Office, whence they will be sent by the Lessee to the various stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Special arrangements for long periods.

For further particulars apply to the Manager, *Bombay Gazette* Office, Rampart Row, Fort.

Patronized by the Aristocracy and Elite, extensively used in the Army and Navy, and highly recommended by the leading Medical Practitioners.

DR. BRIGHT'S PHOSPHODYNE.

THE SAFEST AND ONLY RELIABLE PREPARTION OF PHOSPHORUS.

Multitudes of people are hopelessly suffering from Debility, Nervous and Liver Complaints, Depression of Spirits, Timidity, Indigestion, Lassitude, Want of Power, &c., whose cases admit of a permanent cure by the new remedy, DR. BRIGHT'S PHOSPHODYNE (Ozonic Oxygen), which at once allays all irritation and excitement, imparts new energy and life to the enfeebled constitution, and rapidly cures every stage of these hitherto incurable and distressing maladies.

DR. BRIGHT'S PHOSPHODYNE—Is acknowledged by the first medical men in Europe as the most efficacious medicine hitherto discovered for Weak and Shattered Constitutions, Nervous Debility, Aversion or Incapacity for Study, Indigestion, Female Complaints, Flatulence, Liver Complaints, Shortness of Breath, Pains in the Head, Pimples, Impoverished Blood, and all diseases caused by a long residence in tropical climates, for which iron, mercury, iodide of potass, &c., are given in various forms, often to the destruction of the patient's health.

DR. BRIGHT'S PHOSPHODYNE—Until the introduction of DR. BRIGHT'S PHOSPHODYNE, Phosphorus was but seldom prescribed as a medicine, owing to the difficulty in so preparing it that its action could be kept under perfect control. It had been used in Almond and Olive Oils in Sulphuric Ether, in Rectified Alcohol, in Chloroform, and in several advertised medicines; but, in all the hitherto known methods of its preparation, certain irregular results have been experienced. But in the form of DR. BRIGHT'S PHOSPHODYNE, its invaluable action on the human system is realized without any of those drawbacks which other modes of preparation invariably produce.

DR. BRIGHT'S PHOSPHODYNE, is prepared on a NEW PRINCIPLE, by which all possible risk and disagreeable after effects are entirely prevented.

Caution.—Avoid Phosphorus in the form of Pills or Lozenges, as they frequently contain SOLID PARTICLES of Phosphorus, which accumulate in the system, causing serious evils.

DR. BRIGHT'S PHOSPHODYNE is agreeable to the Palate and innocent in its action, while retaining all its extraordinary properties, and as a specific surpasses all the known Therapeutic agents of the present day.

DR. BRIGHT'S PHOSPHODYNE—Its use enables all debilitated organs to perform their natural functions. Persons suffering from Nervous Debility, or any of the hundred symptoms which this distressing disease assumes, may rest assured of an effectual cure by the use of this most invaluable remedy.

DR. BRIGHT'S PHOSPHODYNE.—The ONLY medicine of that name granted certificates by Her Majesty's Registrar of Trade Marks. Beware of counterfeit Phosphodynes and worthless imitations bearing similar names; they are in no way recognized by the medical profession. Being prepared from OBSOLETE Formulas, they are absolutely unreliable, and in some cases positively dangerous.

DR. BRIGHT'S PHOSPHODYNE
Is Sold in Cases Only by all Chemists and Patent Medicine Vendors throughout the Globe.

Full Directions for use in the English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindostani, Madrasse, Bengalle, Chinese, and Japanese Languages accompany each case, without which none can possibly be genuine Phosphodyne. Every case bears the Trade Mark and Signature of Patentee.
